

L0 Canonical Axiology governed substrate
Value-bearing properties; versioned, typed, provenance-bearing digest

L1 Normative Ontology low/moderate plasticity
Duties, permissions, prohibitions, authorities, exceptions and conflicts

Axiological prior
+ normative late binding

L2a Domain Ontology moderate plasticity
Task entities, relations, jurisdiction and domain context

L2b Purpose Model runtime-conditioned
Purpose, relevance and scope selection over the domain ontology

L3 World State high plasticity
Time-indexed assertions with provenance, confidence and evidence status
